NOVEMBER 8, 2017

MiPCT Dashboard Final Release Posted Today

Release 20.0 (the final release) of the MiPCT Dashboard is now available!

It has been a privilege for MDC to participate throughout the MiPCT project. We have learned so much and are grateful to all of you for making this a successful demonstration! To help celebrate your success, please check out the following documents providing some facts and figures:

- [MDC MiPCT - Medicare Focus Infographic](#)
- [MDC MiPCT - Medicaid Focus Infographic](#)
- [RTI Evaluation of the MAPCP Demonstration](#)

Release Details

This release includes the following updates:

- Paid claims data through March 2017
- Eligibility data through November 2016
- Patients from the November 2016 attribution lists
- An updated measurement period of December 1, 2015 through November 30, 2016
Note: One payer was unable to provide a December 2016 file. As a result, MiPCT leadership decided to end the reporting period in November 2016 to ensure the final incentives reflect a fair inclusion of claims across payers for all organizations.
- An eleventh trend point on the Trends page (December 1, 2015 through November 30, 2016)

Data Destruction

Please note that all hardcopy or electronic reports/files containing PHI that you create or save from the MiPCT data must be destroyed. This is a requirement of the MiPCT project. Your organization must attest to the data destruction by December 8, 2017.

If your organization has already attested to the data destruction, you must ensure that you do not save any PHI from the final release.

If you have any questions, please contact MDC at MichiganDataCollaborative@med.umich.edu.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- [Release Notes](#) - Notes about Release 20.00, including any known issues.
- [User Guide](#) - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- [Report Writer User Guide](#) - Instructions for using the Report Writer.

MAY 9, 2017

MiPCT Dashboard Release 19.00 Posted Today

Release 19.00 of the MiPCT Dashboard is now available!

This release includes the following updates:

- Six months of data was added for this release (Previous releases contained three months of additional data)
- Paid claims data through September 2016
- Eligibility data through June 2016
- Patients from the June 2016 attribution lists
- An updated measurement period of July 1, 2015 through June 30, 2016
- A tenth trend point on the Trends page (July 1, 2015 through June 30, 2016)
- Improvement to methodology for identifying members with chronic ADHD
- Identified and corrected an inconsistency in the construction of Inpatient Admissions

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- [Release Notes](#) - Notes about Release 19.00, including any known issues.
- [User Guide](#) - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- [Report Writer User Guide](#) - Instructions for using the Report Writer.

FEBRUARY 17, 2017

January 2017 BCBSM PDCM Pass-through Files Posted on the MiPCT Dashboard

The Michigan Data Collaborative posted the following January 2017 BCBSM PDCM member pass-through files on the MiPCT Dashboard:

- <PO Name>_PDCM_Commercial_MiPCT_201612.xlsx
- <PO Name>_PDCM_Hosted_Member_201612.xlsx
- <PO Name>_PDCM_MA_201612.xlsx – This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.
- <PO Name>_PDCM_Commercial_Non-MiPCT_201612.xlsx

As MiPCT continues to wind down, BCBSM and MDC are considering using the BCBSM EDDI mailbox to deliver these files each month as an alternative to posting them on the MiPCT Dashboard. We hope you will find this a simple solution to access your files and welcome your feedback or concerns at MichiganDataCollaborative@med.umich.edu.

If you have questions regarding this or any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

Changes in the BCBSM PDCM Files for March 2017

Starting next month, the BCBSM PDCM file structure will change to reflect the end of MiPCT as an active project. The following changes will be implemented:

- We will combine the Commercial MiPCT and Commercial Non-MiPCT files into one file:
<PO Name>_PDCM_Commercial_YYYYMM.csv
- The MiPCT Member column will be deleted from the Commercial file.
- BCBSM is changing the column names for each file, deleting some columns, and the data source will change for some columns. You can see these changes in the BCBSM PDCM to MDC Column Crosswalk spreadsheet, which is located on the MiPCT Support page of the MDC Website.

IMPORTANT: The Michigan Data Collaborative has implemented a new log-in security requirement called two-factor authentication. You must complete the instructions in the [Installing Duo and Using Two-Factor Authentication guide](#) in order to login to the MiPCT Dashboard and access your files.

JANUARY 31, 2017

December 2016 BCBSM PDCM Pass-through Files Posted on the MiPCT Dashboard

The Michigan Data Collaborative posted the following December 2016 BCBSM PDCM member pass-through files on the MiPCT Dashboard:

- <PO Name>_PDCM_Commercial_MiPCT_201612.xlsx
- <PO Name>_PDCM_Hosted_Member_201612.xlsx
- <PO Name>_PDCM_MA_201612.xlsx – This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.
- <PO Name>_PDCM_Commercial_Non-MiPCT_201612.xlsx

NOTE: This month's files are combined PO-level .csv pass-through files for only BCBSM PDCM and not a full APPL posting as we delivered monthly for the MiPCT project. Going forward, PO's will continue to receive these four files on a monthly basis.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

IMPORTANT: The Michigan Data Collaborative has implemented a new log-in security requirement called two-factor authentication. You must complete the instructions in the [Installing Duo and Using Two-Factor Authentication guide](#) in order to login to the MiPCT Dashboard and access your APPLs. For additional information about this process, please see the emails sent by MDC to Dashboard users on 12/13, 12/19, and 12/20.

MDC Launching Updated Website!

Michigan Data Collaborative (MDC) is excited to announce the launch of our new website on Friday, January 13, 2017!

The address is the same: www.MichiganDataCollaborative.org. Please note that there may be a brief downtime while the server is activated. We will send out an email notice when the website is live.

We encourage you to check out the new site and let us know if you have any questions or comments.

Happy New Year!

JANUARY 9, 2017

December 2016 APPLs - BCBSM Hosted Member pass-through file reposted

Last week BCBSM notified us that there was an issue with incorrectly inflated population counts in the PO Name_PDCM_Hosted_Member_201611.xlsx pass-through file they sent to us. They resubmitted a corrected file, and we have updated and reposted these files in your December 2016 MiPCT All Payer Patient Lists. You can find them on the Download PO Reports page of the MiPCT Dashboard.

Questions?

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

IMPORTANT! The Michigan Data Collaborative has implemented a new log-in security requirement called two-factor authentication. You must complete the instructions in the *Installing Duo and Using Two-Factor Authentication guide*, which is located on the [MiPCT Support Page](#) in order to login to the MiPCT Dashboard and access your APPLs. For additional information about this process, please see the emails sent by MDC to Dashboard users on 12/13, 12/19, and 12/20.

JANUARY 4, 2017

December 2016 APPLs - BCBSM Commercial Non-MiPCT pass-through file now included

On 12/29/16, the Michigan Data Collaborative posted the December 2016 MiPCT All Payer Patient Lists with a note that the `_PDCM_Commercial_Non-MiPCT_201611.xlsx` pass-through files were not included. The issue with these files is resolved, and the files are now posted on the Download PO Reports page of the MiPCT Dashboard.

Questions?

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

IMPORTANT! The Michigan Data Collaborative has implemented a new log-in security requirement called two-factor authentication. You must complete the instructions in the *Installing Duo and Using Two-Factor Authentication guide*, which is located on the [MiPCT Support Page](#) in order to login to the MiPCT Dashboard and access your APPLs. For additional information about this process, please see the emails sent by MDC to Dashboard users on 12/13, 12/19, and 12/20.

DECEMBER 29, 2016

MDC's December 2016 MiPCT All Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the December 2016 MiPCT All Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

For information about the sort order and field descriptions, see the [All-Payer Patient List Information](#) on the [MiPCT Support Page](#).

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_2016011.xlsx
- PO name_PDCM_Hosted_Member_2016011.xlsx

Notes

- Because there is an issue with the PO Name_PDCM_Commercial_Non-MiPCT_201611.xlsx pass-through file, it is not included at this time. We will post it as soon as the issue is resolved and will send out another communication when it is available.
- This is the final MiPCT APPL that MDC will post. Next month, we will introduce a new MDC website where MiPCT participants can access their final APPL in January from the MiPCT project, and SIM PCMH Initiative participants can access the new member lists that we will post on a monthly basis. More information is coming soon!

Questions?

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

IMPORTANT! The Michigan Data Collaborative has implemented a new log-in security requirement called two-factor authentication. You must complete the instructions in the *Installing Duo and Using Two-Factor Authentication guide*, which is located on the [MiPCT Support Page](#) in order to login to the MiPCT Dashboard and access your APPLs. For additional information about this process, please see the emails sent by MDC to Dashboard users on 12/13, 12/19, and 12/20.

DECEMBER 28, 2016

New Login Security Instructions for MiPCT Dashboard Users

As of December 20, 2016, the University of Michigan Health System (UMHS) requires everyone who accesses UMHS-sponsored services to use an additional system of security when logging in. This requirement applies to users of MDC MiPCT Dashboard.

The additional system of security is called two-factor authentication, and it adds an extra step to your basic login procedure to ensure your information and the information you are accessing remains secure.

Before you try the new login procedure, you first need to set up two-factor authentication. To do so, you need to follow the instructions in the *Installing Duo and Using Two-Factor Authentication guide*, which is located on the [MiPCT Support Page](#). After you complete these steps, you can then log into the Dashboard using the new system.

Questions about this procedure can be directed to the Health Information Technology and Services (HITS) Help Desk at 734-936-8000 or MCITServiceDesk@med.umich.edu.

NOVEMBER 30, 2016

MDC's November 2016 MiPCT All Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the November 2016 MiPCT All Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

For information about the sort order and field descriptions, see the [All-Payer Patient List Information](#) on the [MiPCT Support Page](#).

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_2016010.xlsx
- PO name_PDCM_Hosted_Member_2016010.xlsx
- PO name_PDCM_MA_MiPCT_2016010.xlsx - This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

OCTOBER 6, 2016

MiPCT Dashboard Enhancement 18.01 Posted Today

Enhancement 18.01 of the MiPCT Dashboard is now available!

This enhancement includes the following updates:

- Updated the standard cost for all trend periods to resolve the known issue for 2014 trend data where some procedures were assigned an incorrect standard cost.
- Resolved the Master Provider Index known issue where the improper taxonomy was assigned to some providers.
- Added Trend 9 (1/2015 - 12/2015) to the Report Writer.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- *Release Notes* - Notes about Enhancement 18.01, including any known issues.
- *User Guide* - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- *Report Writer User Guide* - Instructions for using the Report Writer.

SEPTEMBER 8, 2016

Release 18.0 of the MiPCT Dashboard Released Posted Today

Release 18.0 of the MiPCT Dashboard is now available!

This release includes the following updates:

Data Updates

- Paid claims data through March 2016
- Eligibility data through December 2015
- Patients from the December 2015 attribution lists
- An updated measurement period of January 1, 2015 through December 31, 2015
- A ninth trend point on the Trends page (January 1, 2015 through December 31, 2015)
- ICD-10 data is included in the measurement period

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- *Release Notes* - Notes about Release 18.0, including any known issues.
- *User Guide* - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- *Report Writer User Guide* - Instructions for using the Report Writer.

AUGUST 10, 2016

G-Code Reports for March 2016 Posted Today

Today, MDC posted the G-Code Reports for March 2016 on the Download PO Reports page of the MiPCT Dashboard. The reports use March 2016 attribution for claims paid in March 2016.

The following types of G-Code Reports are included:

- **G-Code:** Provides the March 2016 paid claims using G-codes.
- **G-Code Aggregated Totals:** Provides the total paid claims using G-codes starting from April 2012 for BCBSM and BCN and from July 2013 for Priority Health through March 2016.
- **G-Code Practice Details:** Provides more specific information about each G-Code and CPT code claim, grouped by Practice. All Payers are included on the same tab, with the claims initially sorted alphabetically by Payer and then by Patient Last Name. These reports contain Care Management claims received by MDC (starting from April 2012 for BCBSM and BCN and from July 2013 for Priority Health) up to March 2016. The reports include both paid and rejected claims (but do not include details about why a claim was rejected).

Quick Reference documents for these reports are available in the “New Dashboard Reference Materials / Reports” section of the [MiPCT Support Page](#).

JULY 27, 2016

MDC's July 2016 MiPCT All Payer Patient Lists Release to POs

The Michigan Data Collaborative posted the July 2016 MiPCT All Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

For information about the sort order and field descriptions, see the [All-Payer Patient List Information](#) on the [MiPCT Support Page](#).

If you have any questions or suggestions regarding the All Payer Patient Lists for individual POs or Practices, please contact MDC at MichiganDataCollaborative@med.umich.edu.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201606.xlsx
- PO name_PDCM_Hosted_Member_201606.xlsx
- PO name_PDCM_MA_MiPCT_201606.xlsx - This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.

If you have questions regarding any of the PDCM files, please contact BCBSM's Lisa Rajt at lrajt@bcbsm.com.

JULY 27, 2016

Release 17.0 of the MiPCT Dashboard Posted Today

Release 17.0 of the MiPCT Dashboard is now available!

This release includes the following updates:

Data Updates

- Paid claims data through December 2015
- Eligibility data through September 2015
- Patients from the September 2015 attribution lists
- An updated measurement period of October 1, 2014 through September 30, 2015
- Improvements in age assignment by using the attribution ages for the release across all measures

Measure Changes

In Release 17.0, most reported measures move from HEDIS 2012 to HEDIS 2015 definitions. As a result, there are some known changes due to using new definitions and code lists.

For details about why changes are occurring, how each measure is changing, and a list of exceptions, see the *Release 17.0 Measure Changes document*, located on the [MiPCT Support Page](#) of the MDC Website.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- *Release Notes* - Notes about Release 17.0, including any known issues.
- *User Guide* - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- *Report Writer User Guide* - Instructions for using the Report Writer.

MAY 6, 2016

Enhancement 16.01 of the MiPCT Dashboard Posted Today

Enhancement 16.01 of the MiPCT Dashboard is now available!

This enhancement includes the following updates:

Immunization Measures Revised

The issue with missing immunization information for approximately 25% of BCBSM members has been resolved. The Adolescent Immunizations measure and the Childhood Immunizations/Combo 3 measure have both been recalculated and updated on the Dashboard. The incentives for these measures will be calculated using the corrected data.

Added Risk-Adjusted ED Measures

MDC added the following risk-adjusted ED measures to the Trends page and to the Trends section of the Report Writer:

- ED Risk Adjusted Visits (per 1000 attributed patients)
- Adult ED Risk Adjusted Visits (per 1000 attributed patients)
- Pediatric ED Risk Adjusted Visits (per 1000 attributed patients)

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- *Release Notes* - Notes about Enhancement 16.01, including any known issues.
- *User Guide* - Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.
- *Report Writer User Guide* - Instructions for using the Report Writer.

APRIL 28, 2016

G-Code Reports for July, August, and September 2015 Posted Today

New G-Code Reports for July, August, and September 2015 were posted today on the Download PO Reports page of the MiPCT Dashboard. For each report, the attribution month matches the report month (i.e., the July 2015 report uses July 2015 attribution and so on).

In addition to the high-level monthly and aggregated totals reports, you will find G-Code Detail reports for each Practice included in your PO's zip file. The G-Code Detail reports enable you to view more specific information about each G-Code and CPT code claim included in the aggregate reports.

In each Practice's Detail Report, all Payers are included on the same tab, with the claims initially sorted alphabetically by Payer and then by Patient Last Name. Each report contains all Care Management claims received by MDC (starting from April 2012 for BCBSM and BCN and from July 2013 for Priority Health) up to the "Claims Paid Through" date listed in the header of the report. The reports include both paid and rejected claims (but do not include details about why a claim was rejected).

Quick Reference documents for these reports are available in the "New Dashboard Reference Materials / Reports" section of the [MiPCT Support Page](#).

APRIL 26, 2016

MDC's April 2016 MiPCT All Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the April 2016 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201603.xlsx
- PO name_PDCM_Hosted_Member_201603.xlsx
- PO name_PDCM_MA_MiPCT_201603.xlsx - This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.

For information about the sort order and field descriptions, see the [All-Payer Patient List Information](#) document on the [MiPCT Support page](#).

APRIL 25, 2016

Release 16.0 of the MiPCT Dashboard Posted Today

This release includes the following:

Data Updates

1. Paid claims data through September 2015
2. Eligibility data through June 2015
3. Patients from the June 2015 attribution lists
4. An updated measurement period of July 1, 2014 through June 30, 2015
5. An eighth trend point on the Trends page (July 1, 2014 through June 30, 2015)
6. Improved the Risk Group assignment, reducing the patients in the “Not Available” category from 6% to 1%

MCIR Data Issue

There was an issue with incomplete immunization data for approximately 25% of BCBSM data. We were unable to obtain a revised file with the additional MCIR (Michigan Care Improvement Registry) data in time for the release. Because of this, you will see approximately 5% lower than normal rates for the Adolescent Immunizations measure and approximately 2% lower than normal rates for the Childhood Immunizations/Combo 3 measure.

MDC is working to receive the revised file and will update these measures in the upcoming enhancement scheduled for early May. The incentives for these immunization measures will be calculated using the revised data.

Added Risk-Adjusted ED Measures

MDC added the following risk-adjusted ED measures to the PO Comparisons page and to the Utilization section of the Report Writer:

- ED Risk Adjusted Visits (per 1000 attributed patients)
- Adult ED Risk Adjusted Visits (per 1000 attributed patients)
- Pediatric ED Risk Adjusted Visits (per 1000 attributed patients)
- Note: These measures will be added to the Trends page and the Trends section of the Report Writer in a future enhancement or release.

New Reports

- MDC added the following new reports to the Download PO Reports page:
- PO IP Detail Report: includes the same fields as the Practice IP Detail reports, but includes the records for the entire PO
- PO ED Detail Report: includes the same fields as the Practice ED Detail reports, but includes the records for the entire PO

Updated Graphs

The following graphs have been updated to improve their visual appeal and make them easier to use:

- Quality page / Quality graph: updated the benchmark rate graphic (it is now a green diamond)
- Utilization page / ED and IP Utilization graphs: updated the benchmark rate graphic (it is now a green diamond) and changed the graphs to have a horizontal orientation
- Trends page / Standard Cost PMPM: consolidated previous standard cost PMPM graphs into one graph and redesigned the layout
- Trends page / Diabetes Quality Measures: consolidated previous diabetes quality measure graphs into one graph and redesigned the layout

MARCH 25, 2016

MDC's March 2016 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the March 2016 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201601.xlsx
- PO name_PDCM_Hosted_Member_201601.xlsx
- PO name_PDCM_MA_MiPCT_201601.xlsx

This is the BCBSM Medicare Advantage patient list file. Please note that the MA members are non-MiPCT members.

Note: BCBSM's February PDCM files were not ready in time for processing this month. In order to keep our schedule, we posted the January files that we have available.

New this Month

Starting this month, the lists include a High ED Utilizer Flag field, which indicates that a patient is a High ED Utilizer.

A "1" in this field indicates that a patient is a High ED Utilizer; a "0" or no entry indicates that they are not.

A patient is flagged if the following statements are both true:

- The patient is enrolled in MiPCT for 6 or more months of the 12 month reporting period.
- The patient visited an Emergency Department 8 or more times during the reporting period.

FEBRUARY 26, 2016

MDC's February 2016 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the February 2016 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201601.xlsx
 - PO name_PDCM_Hosted_Member_201601.xlsx
 - PO name_PDCM_MA_MiPCT_201601.xlsx
- This is the BCBSM Medicare Advantage patient list file.
Please note that the MA members are non-MiPCT members.

FEBRUARY 12, 2016

Release 15.0 of the MiPCT Dashboard Posted Today

Release 15.0 of the MiPCT Dashboard is now available!

This release includes the following updates:

Data Updates

- Paid claims data through June 2015
- Eligibility data through March 2015
- Patients from the March 2015 attribution lists
- An updated measurement period of April 1, 2014 through March 31, 2015

Dashboard Additions

Addition of the following measures to the Utilization page:

- Adult ED Risk Adjusted Visits
- Pediatric ED Risk Adjusted Visits
- ED Risk Adjusted Visits (combined Adult and Pediatric)

MDC expanded the matching algorithm to address blank Payer-specific patient identifiers in clinical (EMR) data. The result is an increase in the number of clinical records included in measures, which may increase the eQCM and supplemental rates for clinical quality measures for some POs.

Note: The Medicaid data for lead screening was not available for this release. To avoid additional delays we proceeded without this data. As a result, the Lead Screening quality measure will display “0” as the numerator and “0%” as the rate. We anticipate that the issue will be resolved for Release 16.0, which is targeted for release in March 2016.

Report Writer Updates

Multiple entity selection is now available (depending on your access level). For example, users with access to more than one Practice can select multiple Practices to include in the same report.

You can now select individual commercial payers (BCBSM, BCN, and Priority Health) in the Quality and Utilization sections.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

JANUARY 25, 2016

MDC's January 2016 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the January 2016 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list. Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201511
- PO name_PDCM_Hosted_Member_201511
- PO name_PDCM_MA_201511

This is the BCBSM Medicare Advantage patient list file. Starting with December 2015, this file is now included in the additional BCBSM member files that MDC passes along to POs. Because it no longer goes through our MiPCT process, it will be in a format similar to the other additional BCBSM files. (It will no longer include the MiPCT-specific fields; it will contain only the fields provided by BCBSM.)

Note: BCBSM's December PDCM files were not ready in time for processing this month. In order to keep our schedule, we posted the November files that we have available.

JANUARY 13, 2016

G-Code Reports for January 2015 through May 2015 Posted Today

New G-Code Reports for January 2015 through May 2015 were posted today on the Download PO Reports page of the MiPCT Dashboard. For each report, the attribution month matches the report month (i.e., the January 2015 report uses January 2015 attribution and so on).

Each .zip file includes a monthly PO-level report and aggregated total reports. Note that the original plan for the January through May 2015 reports was to provide only PO-level summary reports and not the historical total reports. However, the MDC development team was able to include all reports.

For additional details about the G-Code reports, Quick Reference documents are available in the New Dashboard Reference Materials / Reports section of the MiPCT Support Page.

DECEMBER 24, 2015

June 2015 G-Code Reports Posted Today

New G-Code Reports for June 2015 were posted today on the Download PO Reports page of the MiPCT Dashboard. The reports use June 2015 attribution for claims paid in June 2015.

These reports include the following additional procedure codes as defined by the Billing, Coding and Payment Collaborative:

- For BCBSM, codes 99496 and S0257
- For BCN and Priority Health, codes 99495, 99496, and S0257

In addition to the high-level monthly and aggregated totals reports, you will find G-Code Detail reports for each Practice included in your PO's zip file. The G-Code Detail reports enable you to view more specific information about each G-Code and CPT code claim included in the aggregate reports.

In each Practice's Detail Report, all Payers are included on the same tab, with the claims initially sorted alphabetically by Payer and then by Patient Last Name. Each report contains all Care Management claims received by MDC (starting from April 2012 for BCBSM and BCN and from July 2013 for Priority Health) up to the "Claims Paid Through" date listed in the header of the report. The reports include both paid and rejected claims (but do not include details about why a claim was rejected).

Note: Our plan for the January 2015 through May 2015 G-Code reports is to provide the PO-level summary reports, but not the separate Practice reports nor the historical total reports. This is because the reports posted today already contain the Practice-level and PO aggregated totals for claims paid through June 2015. After the January 2015 through May 2015 monthly reports have been generated and posted we will once again provide the usual G-Code reports on a regular schedule.

Quick Reference documents for these reports are available in the New Dashboard Reference Materials / Reports section of the MiPCT Support Page.

DECEMBER 23, 2015

MDC's December 2015 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the December 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list. Also included are the following additional BCBSM member files:

- PO name_PDCM_Commercial_Non-MiPCT_201511
- PO name_PDCM_Hosted_Member_201511
- PO name_PDCM_MA_201511: This is the BCBSM Medicare Advantage patient list file. Starting with December 2015, this file is now included in the additional BCBSM member files that MDC passes along to POs. Because it no longer goes through our MiPCT attribution process, it will be in a format similar to the other additional BCBSM files. (It will no longer include the MiPCT-specific fields; it will contain only the fields provided by BCBSM.)

NOVEMBER 24, 2015

MDC's November 2015 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the November 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: `POName_All_Practice_BCBSM_MA_Patient_List_2015_11`.

New this Month

Starting this month, the lists include a Healthy Michigan Flag field, which identifies members who have coverage under the Medicaid Healthy Michigan Plan. A "1" indicates that a member has this coverage; a "0" indicates that they do not.

Coming Soon

In the first week of December, MDC will post the following BCBSM member files on the Download PO Reports page, in your PO's APPL .zip file:

- `PDCM_Hosted_Members_201510`
- `PDCM_Commercial_Non-MiPCT_201510`
- `PDCM_Hosted_Members_Non-MiPCT_201510`

We will send out an email after these files are posted.

NOVEMBER 10, 2015

Enhancement 14.01 of the MiPCT Dashboard Posted Today

The enhancement includes the following updates:

- Added a process to update previously-unassigned Standard Cost for procedure and revenue codes
- Added the 7th trend time period (1/2014 — 12/2014) to the Trends section of the Report Writer
- When you create a report using the Report Writer, the trend time period columns now display in date order (oldest to most recent)

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

Release Notes: Notes about Enhancement 14.01, including any known issues

User Guide: Complete descriptions of the Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists

NOVEMBER 5, 2015

MDC's October 2015 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the October 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the PO Reports page of the MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Notes

- Due to data transmission issues between MDC and Priority Health, this month's lists use Priority Health's August 2015 membership files.
- The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: `POName_All_Practice_BCBSM_MA_Patient_List_2015_10`.

NOVEMBER 3, 2015

The 2014 4th Quarter set of RTI Practice Feedback Reports Posted Today

The 2014 4th Quarter set of RTI Practice Feedback Reports are posted and available to view on the Download PO Reports page of the MiPCT Dashboard. The results contained in the reports are based on Medicare Fee-for-Service beneficiaries assigned to each practice from January 1, 2012 through December 31, 2014.

After you log on to the MiPCT Dashboard, navigate to PO Reports / Download PO Reports, and then scroll down to the Medicare Practice Feedback Report section.

There is a .zip file for each PO that contains reports in PDF format for each Practice, and a Summary Report in Excel that lists the results for all non-pediatric Practices in the PO. You can use the Summary Report to compare Practice rates or to conduct additional analysis.

Please note that this is the final RTI report posting. We would appreciate any feedback about what you have found useful in these reports so that we can look into providing this information in our won reports.

Support documentation can be found on the MDC Website's Support page. Click the New Dashboard Reference Materials link and scroll down to the Reports Section.

SEPTEMBER 25, 2015

MDC's September 2015 MiCPT All-Payer Patient Lists Released to POs Today

The Michigan Data Collaborative posted the September 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the PO Reports page of the new MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Notes

- Due to data transmission issues between MDC and Priority Health, this month's lists use Priority Health's August 2015 membership files.
- The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: PO Name_All_Practice_BCBSM_MA_Patient_List_2015_09.

SEPTEMBER 23, 2015

Release 14.0 of the MiPCT Dashboard Posted Today

Release 14.0 includes the following updates:

- Paid claims data through March 2015
- Eligibility data through December 2014
- Patients from the December 2014 attribution lists
- An updated measurement period of January 1, 2014 through December 31, 2014
- A seventh trend point on the Trends pages (January 1, 2014 through December 31, 2014)

Note: The release process time took longer than usual because Release 14.0 contains the Medicare final claims and history for new MiPCT participants for all of 2014. We now have procedures in place to ensure that we can integrate these files in a more timely manner next year.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

AUGUST 6, 2015

August 2015 Report Writer Enhancement Posted Today!

Several updates were added to the Report Writer tool on the MiPCT Dashboard.

The August 2015 Report Writer enhancement includes the following updates:

The Report Writer sections automatically display all options (you no longer have to expand each section).

Total selection boxes were added for several measure groups. These selection boxes display the totals for all components in the group combined.

Overall rate selection boxes were added for several measure groups. These rates selection boxes display the combined rate for all components of a measure group.

For additional information and details, see the following documents, which are located on the Support page of the MDC Website:

[August 2015 Report Writer Enhancement Release Notes](#) — Details about the August 2015 Report Writer enhancement, including any known issues.

[Report Writer User Guide](#) — Instructions about creating your own unique reports using the Report Writer tool.

JULY 10, 2015

Enhancement 13.01 of the MiPCT Dashboard Posted Today

This enhancement includes the following updates:

Fixes to the Breast Cancer Screening and Cervical Cancer Screening measure calculations for the supplemental data. The supplemental data rates now use time frames consistent with the HEDIS measures found in the Clinical Quality Measures table.

Added the following columns to the Clinical Quality Measure table drill-down lists:

Master Patient ID — MDC’s unique patient ID for each member that allows identification of an individual across Payers and across Dashboard releases.

Clinical Numerator — a “1” indicates that a clinical registry record is associated with a patient.

Clinical Denominator — a “1” indicates that the patient qualified for the supplemental denominator.

The Clinical Numerator and Denominator fields will assist analysts in identifying the patient contribution to the supplemental data rates.

The current reporting period’s PO-Practice-Provider attribution has been applied to all trend points, consistent with the attribution and trending methodology in previous Dashboard releases.

Support Documentation

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

JULY 01, 2015

December 2014 G-Code Reports Posted

New G-code Reports for December 2014 were posted today on the Download PO Reports page of the MiPCT Dashboard. The reports use June 2015 attribution for claims paid in December 2014.

In addition to the high-level monthly and aggregated totals reports, you will find G-Code Detail reports for each Practice include in your PO's zip file. The G-Code Detail reports enable you to view more specific information about each G-Code and CPT code claim included in the aggregate reports.

In each Practice's Detail Report, all Payers are include on the same tab, with the claims initially sorted alphabetically by Payer and then by Patient Last Name. Each report contains all Care Management claims received by MDC (starting from April 2012 for BCBSM and BCN and from July 2013 for Priority Health) up to the "Claims Paid Through" date listed in the header of the report. The reports include both paid and rejected claims (but do not include details about why a claim was rejected).

Quick Reference documents for these reports are available in the New Dashboard Reference Materials / Reports section of the section of the MiPCT Support Page.

MAY 18, 2015

Updated November 2014 G-Code Reports Posted Today

Updated G-code Reports for November 2014 were posted today. MDC discovered a discrepancy between the attribution month used for the detailed G-Code reports and the high-level monthly and aggregated totals reports. Because of this, if there were any PO, PU, or physician changes between these two attribution time periods, there was inconsistency between the detail reports and the high-level reports. This issue has been resolved, and all of the reposted reports now reflect the correct attribution month of April 2015.

We apologize for any inconvenience.

APRIL 29, 2015

MDC's April 2015 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the April 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the PO Reports page of the new MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2015_04.

The following changes were made to this month's lists:

Added a High Risk Flag field, which indicates if the patient is considered High Risk (1 = High Risk; 0 = Not High Risk)

The patient sort order was updated

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

APRIL 7, 2015

October 2014 G-Code Reports Posted Today

New G-code Reports for October 2014 are available on the Download PO Reports page of the MiPCT Dashboard. The reports use March 2015 attribution for claims paid in October 2014.

There are two reports (monthly and aggregated totals). Each report's file contains a tab for each Payer (BCBSM, BCN, and Priority Health). The files are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2014_10.zip file.

A Quick Reference Guide for these reports is available in the New Dashboard Reference Materials section of the MiPCT Support Page.

APRIL 1, 2015

MDC's March 2015 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the March 2015 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the PO Reports page of the new MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2015_03.

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

MARCH 23, 2015

September 2014 G-Code Reports Posted Today

New G-code Reports for September 2014 are available on the Download PO Reports page of the new MiPCT Dashboard. The report uses February 2015 attribution for claims paid in September 2014.

Starting this month (March 2015), the report format has been updated. There are still two reports (monthly and aggregated totals), but there is now one file for each report, and each file contains a tab for each Payer (BCBSM, BCN, and Priority Health). The files are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2014_09.zip file.

A Quick Reference Guide for these reports is available in the New Dashboard Reference Materials section of the MiPCT Support Page.

FEBRUARY 09, 2015

The 2014 1st Quarter set of RTI Practice Feedback Reports Posted Today

The 2014 1st Quarter set of RTI Practice Feedback Reports are posted and available to view on the Download PO Reports tab of the MiPCT Dashboards. The results contained in the reports are based on Medicare Fee-for-Service beneficiaries assigned to each practice from April 1, 2013 through March 31, 2014.

After you log on to the MiPCT Dashboards, navigate to PO Reports / Download PO Reports, and then scroll down to the Medicare Practice Feedback Report section.

There is a .zip file for each PO that contains reports in PDF format for each Practice, and a Summary Report in Excel that lists the results for all non-pediatric Practices in the PO. You can use the Summary Report to compare Practice rates or to conduct additional analysis.

Support documentation can be found on the MDC Website's Support page. Click the New Dashboard Reference Materials link and scroll down to the Reports Section.

DECEMBER 17, 2014

MiPCT Dashboard Release 11.0 Posted Today

Release 11.0 for the MiPCT Dashboard is now available!

This release includes the following updates:

Data Updates

Paid claims and eligibility data through June 2014

An updated measurement period of April 1, 2013 through March 31, 2014

Dashboard Additions

Added a new Electronic Clinical Quality Measure for Depression Screening

Important! We are providing the Depression Screening data so you can review it prior to the 30-month incentives release. Please review this data and let MDC know if anything seems out of the ordinary. It is important for MDC to receive feedback on all incentive-related measures found in the dashboard prior to the calculation of incentives. Additional details are included in the 11.0 Release Notes.

You can access the following support documentation to help you navigate and use the Dashboard. The following documents are located on the Support page of the MDC Website:

- [Accessing the MiPCT Dashboard — How to access and log on to the new MiPCT Dashboard](#)
- [Navigating the New MiPCT Dashboard Quick Reference — How to navigate the new MiPCT Dashboard](#)
- [User Guide — Complete descriptions of the new Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists](#)
- [Release Notes — Notes about Release 11.0, including any known issues](#)

DECEMBER 5, 2014

MiPCT Dashboard Release 11.0 Coming Soon!

MDC expects to launch Release 11.0 of the new Dashboard this month. It includes the following:

- A new Depression Screening Clinical Quality Measure
- Paid claims and eligibility data through June 2014
- An updated measurement period of May 1, 2013 through April 30, 2014

When the release is ready, we will send an email to notify users and provide the release details.

Important! We are providing the Depression Screening data so you can review it prior to the 30-month incentives release. Please review this data and let MDC know if anything seems out of the ordinary. It is important for MDC to receive feedback on all incentive-related measures found in the dashboard prior to the calculation of incentives. Additional details will be included in the 11.0 release notes.

SEPTEMBER 30, 2014

Enhancement 10.01 of the MiPCT Dashboard Posted Today

This enhancement includes the following updates:

Data Updates

The Breast Cancer and Cervical Cancer Screening Clinical Quality Measures are now supplemented with clinical data from Electronic Health Records (EHRs) submitted by POs.

Dashboard Additions and Changes Quality Page

In the Quality Measures table, the supplemental rate (Suppl Rate) and supplemental numerator (Suppl Num) fields are now populated for Breast Cancer Screening and Cervical Cancer Screening.

In Clinical Quality Measures table, the supplemental denominator (Suppl Deno) field was added and is populated for the Clinical Quality Measures.

SEPTEMBER 12, 2014

Release 10.0 of the MiPCT Dashboard Posted Today

This release includes the following updates:

Data Updates

For measures that MDC calculates, the measurement year includes dates of service from 1/1/2013 through 12/31/2013 based on paid claims through 3/31/2014. This calculation allows for a three-month claims run-out./li>

A fifth trend point was added with the following timeframe: 1/1/2013 — 12/31/2013.

All trend period data has been recalculated to limit claims run-out to three months.

The Clinical Quality Measures are now supplemented with clinical data from Electronic Health Records (EHRs) submitted by POs. (Excludes Breast Cancer and Cervical Cancer Screening, which will include supplemental data in a future release or enhancement.)

The calculation for Chronic Conditions has been updated to better count the prevalence of chronic conditions in the data. Now, patients are flagged as having a condition if they meet the criteria prior to the end of the run-out timeframe.

Identification of MiPCT patients and their associated POs, PUs, and Providers is now aligned with the end of the measurement period, not the most recent attribution files available. For Release 10.0, the attribution is from December 2013.

Dashboard Additions and Changes

The Quality page now has two tables — one for Clinical Quality Measures and one for Electronic Clinical Quality Measures (eCQMs).

The Clinical Quality Measures table contains two new columns:

Suppl Rate — Displays a rate based on the claims-based data supplemented with clinical data from the EHRs submitted by POs.

Suppl Num — Displays the count of patients included in the numerator when claims-based data is supplemented with clinical data from the EHRs submitted by POs.

Support Documentation

You can access the support documentation to help you navigate and use the new Dashboard. The following documents are located on the Support page of the MDC Website:

AUGUST 22, 2014

The 2013 4th Quarter set of RTI Practice Feedback Reports Posted Today

The 2013 4th Quarter set of RTI Practice Feedback Reports are posted and available to view on the Download PO Reports tab of the MiPCT Dashboards. The results contained in the reports are based on Medicare Fee-for-Service beneficiaries assigned to each practice from January 1, 2012 through December 31, 2013.

After you log on to the MiPCT Dashboards, navigate to PO Reports / Download PO Reports, and then scroll down to the Medicare Practice Feedback Report section.

There is a .zip file for each PO that contains reports in PDF format for each Practice, and a Summary Report in Excel that lists the results for all non-pediatric Practices in the PO. You can use the Summary Report to compare Practice rates or to conduct additional analysis.

Support documentation can be found on the MDC Website's Support page. Click the New Dashboard Reference Materials link and scroll down to the Reports Section.

AUGUST 1, 2014

April 2014 G-Code Reports Posted Today

New G-code Reports for April 2014 are available on the Download PO Reports tab of the old MiPCT Dashboard and the PO Reports page of the new MiPCT Dashboard. These reports use June 2014 attribution for claims paid in April 2014. The reports are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2014_04.zip file.

Important: Starting this month, the G-Code reports contain data from Priority Health and BCN, in addition to BCBSM.

A Quick Reference Guide for these reports is available in the User Guides section of the MiPCT Support Page.

JULY 31, 2014

Enhancement 9.01 of the MiPCT Dashboard Posted Today

This enhancement includes the following additions and updates:

- Four new Electronic Clinical Quality Measures (eQMs)
- Adult BMI Reporting Rate
- Adult Tobacco Use Assessment
- Pediatric BMI Reporting Rate
- Pediatric Tobacco Use Assessment

NOTE: “eQCM” as used in the MiPCT Dashboard is a generic term used to describe electronic quality measures developed by the MiPCT project. They are not the same as the eQCM definitions used by CMS.

An updated denominator definition for the Diabetes eQMs (HbA1c Control, HbA1c Poor Control, and LDL-C Control). The definition now includes patients with diabetes who have a claim for an HbA1c test or an LDL-C test. The previous definition included all diabetes patients whether or not they had these tests.

Important! Because some POs have had issues logging on to the new Dashboard, the old Dashboard will remain accessible until we determine that the remaining issues are resolved. The old Dashboard will remain accessible for the purposes of downloading PO reports only. In the meantime, MDC urges you to log on to the new Dashboard (which has the most up-to-date data) and contact us right away if you have any issues or concerns.

Support Documentation

You can access the support documentation to help you navigate and use the new Dashboard. The following documents are located on the Support page of the MDC Website:

JULY 1, 2014

Release 9.0 of the MiPCT Dashboard Posted Today

This release includes the following additions and updates:

- Electronic Clinical Quality Measures (on the Quality page), which are based on the EMR data received from each PO
- Paid claims and eligibility data through January 2014
- An updated measurement period through October 2013

Important! Because some POs are having issues logging onto the new Dashboard, the old Dashboard will remain accessible until we determine that the remaining issues are resolved. The old Dashboard will remain accessible for the purposes of downloading PO reports only. In the meantime, MDC urges you to log on to the new Dashboard (which has the most up-to-date data) and contact us right away if you have any issues or concerns.

Support Documentation

You can access the support documentation to help you navigate and use the new Dashboard. The following documents are located on the Support page of the MDC Website:

- [Accessing the MiPCT Dashboard — How to access and log in to the new MiPCT Dashboard](#)
- [Navigating the New MiPCT Dashboard Quick Reference — How to navigate the new MiPCT Dashboard](#)
- [User Guide — Complete descriptions of the new Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists](#)
- [Release Notes — Notes about Release 9.0 including any known issues](#)
- [Webinar, Webinar Slide Deck, and Webinar Q & A — Introduction to the new Dashboard format](#)

JUNE 26, 2014

MDC's June 2014 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the June 2014 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the old MiPCT Dashboard and the PO Reports page of the new MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2014_06.

The following two new Payer-specific ID fields were added to the June 2014 lists to help you with identifying patients:

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page

JUNE 06, 2014

February and March 2014 G-Code Reports Posted Today

The Michigan Data Collaborative posted the February and March 2014 G-Code Reports today. They are located on the Download PO Reports tab of the old MiPCT Dashboard and the PO Reports page of the new MiPCT Dashboard.

The February report uses May 2014 attribution for claims paid in February 2014; the March report uses May 2014 attribution for claims paid in March 2014. The reports are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2014_02.zip and <PO name>_G-Code_Reports_MiPCT_Overall_2014_03.zip files.

G-code Reports for Priority Health and BCN claims are currently in development. When these reports are ready, MDC will send out notification via email and post an announcement in the What's New section of the MDC Website.

A Quick Reference Guide for these reports is available in the User Guides section of the MiPCT Support Page.

MDC Provides New Dashboard Logon Workaround for Internet Explorer

Some MDC users have had difficulty logging on to the new MiPCT Dashboard using the Internet Explorer (IE) browser. The issue is that IE is prefilling the login dialog box with the PO user's domain instead of the UMHS domain. For more information and workaround instructions, see the [New MiPCT Dashboard Internet Explorer Logon Workaround](#) document on the MDC Website Support page.

MAY 30, 2014

May 2014 Dropped Patient Lists Reposted

MDC updated and reposted the May 2014 dropped patient lists that are included with the All-Payer Patient lists (APPLs). We updated the lists because we found that some BCBSM and BCN patients were erroneously included in the dropped patient lists due to a change in the way we populate the Payer Specific Member ID field. The APPLs were not affected and have not been updated.

Additionally, the All-Payer Patient List Information document was reposted with the following change, which was not included in the original version released on 5/22/14:

- Updated the text to reflect the change in how the Payer Specific Member ID field is now populated for BCBSM and BCN. (Instead of using the Patient ID from eligibility and then the Payer-specified ID when eligibility is not available, we are now using the Payer-specified ID regardless of eligibility.)
- BCBSM uses the per_member_id from the attribution file sent by BCBSM.
- BCN uses a concatenation of the subscriber number and the subscriber suffix from the attribution file sent by BCN.

You can access the All-Payer Patient List Information document on the [Support page](#).

MAY 23, 2014

MDC's May 2014 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the May 2014 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the old MiPCT Dashboard and the PO Reports page of the new MiPCT Dashboard. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2014_05.

The following two new Payer-specific ID fields were added to the May 2014 lists to help you with identifying patients:

- BCN_ELIG_ID
- BCBSM_ELIG_ID

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

MAY 21, 2014

New MiPCT Dashboard is Available!

MDC is excited to announce the availability of the new MiPCT Dashboard, which is being launched as Enhancement 8.01. It is based on the Tableau platform and provides a more intuitive and flexible environment. The new Dashboard contains the same data as the old dashboard (Release 8.0 data, which includes paid claims through November 2013), but is presented in a streamlined and easier-to-use format. The old dashboard will remain available until Release 9.0 is posted in June 2014 (and will include paid claims through January 2014).

No changes were made to the old dashboard as part of this Enhancement.

Accessing the New Dashboard

You can access the new Dashboard with the same steps you currently use to access the old dashboard. For detailed instructions, see the [Accessing the MiPCT Dashboard](#) document.

Note: If you open a new browser window, you can follow the instructions above to open the old dashboards (except select the MiPCT Dashboard and Reports link) and view them both simultaneously.

Support Documentation You can access the support documentation to help you navigate and use the new Dashboard. The following documents are located on the [Support](#) page of the MDC Website:

- [Accessing the MiPCT Dashboard — How to access and log in to the new MiPCT Dashboard](#)
- [Navigating the New MiPCT Dashboard Quick Reference — How to navigate the new MiPCT Dashboard](#)
- [User Guide — Complete descriptions of the new Dashboard components and instructions for using the features, including exporting and drilling down to detailed lists.](#)
- [Release Notes — Notes about Enhancement 8.01 including any known issues](#)
- [Webinar, Webinar Slide Deck, and Webinar Q & A — Introduction to the new Dashboard format](#)

If you have any questions, or if you would like to provide feedback or suggestions, please contact MDC at MichiganDataCollaborative@umich.edu.

MAY 14, 2014

April 2014 APPLs Reposted

MDC recreated and reposted the April 2014 All-Payer Patient Lists (APPLs) to include patients from a large Washtenaw County employer group who were inadvertently left off the original April patient list that BCN submitted. All other Payer's patients remain unchanged. However, every PO's patient list was impacted--some greater than others depending on their location in Michigan.

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the Support page.

MAY 12, 2014

MDC Plans to Re-Post the April 2014 APPLs

Please be advised that MDC is re-creating and re-posting the April 2014 All-Payer Patient Lists (APPLs) to include a replacement file we received from BCN at the end of last week. The issue is that several patients from a large Washtenaw County employer group were inadvertently left off BCN's original April patient list. All other Payers' patients on the currently posted April APPLs will remain unchanged.

We expect to re-post the updated April APPL by the end of this week. When the updated files are re-posted, we will send out notice via email and the What's New page on the MDC Website.

MAY 9, 2014

The 2013 3rd Quarter set of RTI Practice Feedback Reports Posted Today

A set of RTI Practice Feedback Reports are posted and available to view on the Download PO Reports tab of the MiPCT Dashboards. The results contained in the reports are based on Medicare Fee-for-Service beneficiaries assigned to each practice from January 1, 2012 through September 30, 2013.

After you log on to the MiPCT Dashboards, navigate to the Download PO Reports tab, and then scroll down to the Medicare Practice Feedback Report section.

There is a .zip file for each PO that contains reports in PDF format for each Practice, and a Summary Report in Excel that lists the results for all non-pediatric Practices in the PO. You can use the Summary Report to compare Practice rates or to conduct additional analysis.

Notes about the Reports

MDC did not receive about 33 reports from RTI that we were expecting. MDC is following up on these missing reports, but went ahead and posted the ones we did receive. If we receive the missing reports, we will post them as soon as we have them and send out a notification. The Practices we believe are missing are listed below by MiPCT Practice ID. (Contact MDC if you don't know which Practice belongs to each ID.) As of now, there is no word from RTI one way or the other regarding whether or not these reports will be created and provided to us. Advantage — P00MI095, P00MI478; Bronson — P00MI339; CIPA — P00MI208; Great Lakes — P00MI259, P00MI417; Greater Macomb — P00MI406, P00MI408; HFMG — P00MI100; IHA — P00MI302, P00MI307; LHN — P00MI180; OSP — P00MI057; proMed — P00MI033; SJHP — P00MI566; Sparrow PHN — P00MI121, P00MI249, P00MI317, P00MI322, P00MI474; St Mary's — P00MI265, P00MI268, P00MI331, P00MI501; UP — P00MI034, P00MI059, P00MI088, P00MI181, P00MI213, P00MI288, P00MI299, P00MI481; WMPN — P00MI442

The Summary Reports that MDC created for each PO do contain the data for all of the Practices that we expected to receive, including the missing Practices listed above.

Support documentation can be found on the MDC Website's Support page. Click the User Guides link and scroll down to the Medicare Practice Feedback Reports Section.

APRIL 28, 2014

MDC's April 2014 MiPCT All-Payer Patient Lists Released to POs

The Michigan Data Collaborative posted the April 2014 MiPCT All-Payer Patient Lists today. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the MiPCT Dashboards. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2014_04.

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

APRIL 16, 2014

January 2014 G-Code Reports Posted

New G-code Reports for January 2014 are available on the Download PO Reports tab of the MiPCT Dashboards. These reports use March 2014 attribution for claims paid in January 2014. The reports are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2014_01.zip file.

We apologize for the delay in getting these reports to you and appreciate your patience and understanding as we worked to resolve an issue with incoming data.

A Quick Reference Guide for these reports is available in the User Guides section of the MiPCT Support Page.

APRIL 2, 2014

December 2013 G-Code Reports Released

New G-code Reports for December 2013 are available on the Download PO Reports tab of the MiPCT Dashboards. These reports use March 2014 attribution for claims paid in December 2013. The reports are located in the <PO name>_G-Code_Reports_MiPCT_Overall_2013_12.zip file.

We apologize for the delay in getting these reports to you and appreciate your patience and understanding as we worked to resolve an issue with incoming data.

Notes

- The November 2013 G-Code Reports will not be re-created because no new G-Code claims were provided in the updated data we received.
- The January 2014 reports are expected to be posted the 2nd week of April, pending receipt of the January 2014 paid claims data.

A Quick Reference Guide for these reports is available in the User Guides section of the MiPCT Support Page.

APRIL 01, 2014

Release 8.0 of the MiPCT Dashboards and Reports Posted Today

This release includes the following additions and updates:

- For measures that MDC calculates, the measurement year includes dates of service from 9/1/2012 through 8/31/2013 based on paid claims through 11/30/2013. This calculation allows for a three-month claims run-out.
- Priority Health PPO data is included.
- Standard Cost values have been updated for new claims from the newest version of the Truven Health Analytics Commercial MarketScan® data.
- Added Inpatient utilization trend data to the MiPCT and PO Utilization Trends dashboards.
- Added Inpatient utilization data to the PO Comparison — Utilization dashboard.
- Added new PO Inpatient Utilization Comparison Reports (one comparing all POs and one comparing all Practices within your PO).
- Changed the titles of the Comparison Reports in the <PO name>_Reports_YYYY_MM.zip file to better reflect the reports included.

Updated documentation, including the Release Notes and User Guide, are posted on the Support page of the MDC Website. If you have any questions, or if you would like to provide feedback or suggestions, please contact MDC at MichiganDataCollaborative@umich.edu.

MARCH 28, 2014

Updated RTI Practice Feedback Summary Reports Posted

As mentioned in the original report announcement, updated RTI Practice Feedback Summary Report spreadsheets have been prepared and are now posted on the Download PO Reports tab of the MiPCT Dashboards. These reports cover the time period from Jan 2012 to Jun 2013.

The updated reports contain the following:

- Data for all Practices: RTI used an older Practice list, which resulted in missing data for some Practices on the original listing that MDC prepared. MDC prepared a cross-reference for the older Practice list and filled in the data for the missing Practices on each spreadsheet.
- PO-level totals for Quality Measures: RTI does not compute PO-level measures (they only compute Practice level measures). MDC was able to derive and include PO-level totals for the Quality Measures on the updated spreadsheet. An additional set of data is required from RTI to derive PO-level totals for the Cost and Utilization measures. MDC recently received this additional data and is currently testing it. We expect to have this data available when we release the next quarterly RTI Practice Feedback reports, which are expected to be received from RTI in mid-April.

To access the updated spreadsheet, log into the MiPCT Dashboards, navigate to the Download PO Reports tab, and scroll down to the Medicare Practice Feedback Reports section. There is one .zip file for each PO in the following format: <POname>_Medicare_Practice_Feedback_Reports_YYYY_MM.zip. Each .zip file contains a report in PDF format for each Practice and Report Summary in Excel, which lists the results for each Practice in the PO. You can use Report Summary to compare Practice rates or to conduct additional analysis.

Support Documentation

The following support documentation may be helpful to get you started and to find more information about the methodology used to create the reports.

- Practice Feedback Report Announcement Webinar
- Download PO Reports — Medicare Practice Feedback Reports Quick Reference
- Practice Feedback Report Technical Reference Guide
- Practice Feedback Report Webinar Slides

The support documentation can also be found on the MDC Website's Support page. Click the User Guides link and scroll down to the Medicare Practice Feedback Reports Section.

We expect to release the next set of quarterly reports in mid-April and will send out notification when they are posted.

MARCH 14, 2014

RTI Practice Feedback Reports Posted

The RTI Practice Feedback Reports are posted and available to view on the Download PO Reports tab of the MiPCT Dashboards.

After you log into the MiPCT Dashboards, navigate to the Download PO Reports tab, and scroll down to the Medicare Practice Feedback Reports section.

There is one .zip file for each PO in the following format: <POName>_Medicare_Practice_Feedback_Reports_YYYY_MM.zip.

Each .zip file contains a report in PDF format for each Practice and Report Summary in Excel, which lists the results for each Practice in the PO. You can use Report Summary to compare Practice rates or to conduct additional analysis.

Notes about the Reports

- When creating the reports, RTI used an older Practice list. As a result, the data for some Practices were not included in this round of reports and show up as a blank row on the report. MDC is working to update this and will send out notice when updated reports are posted. Watch for an update the week of March 17th.
- RTI did not provide PO-level totals. MDC is working to backward calculate this data; however, we need additional data points from RTI to do so. MDC is working on it with RTI and will send a notice when we post updated Report Summaries with these totals.

Support Documentation

The following support documentation may be helpful to get you started and to find more information about the methodology used to create the reports.

- [Practice Feedback Report Announcement Webinar](#)
- [Download PO Reports — Medicare Practice Feedback Reports Quick Reference](#)
- [Practice Feedback Report Technical Reference Guide](#)
- [Practice Feedback Report Webinar Slides](#)

The support documentation can also be found on the MDC Website's Support page. Click the User Guides link and scroll down to the Medicare Practice Feedback Reports Section.

MARCH 12, 2014

Enhancement 7.02 of the MiPCT Dashboards and Reports Posted Today

This enhancement includes the following additions:

- Added the MiPCT and PO Utilization Trends dashboards. These dashboards contain trend data for the ED utilization measures.
- Note: Inpatient utilization trend data will be added in a future release or enhancement.
- Added a fourth trend point (July 2012 — June 2013) to all trend dashboards.
- Note: Data for Priority Health PPO is not yet included in this trend point, but will be added in a future enhancement.
- Fixes to known issues.

JANUARY 27, 2014

MDC's January 2014 MiPCT All-Payer Patient Lists released to POs

The Michigan Data Collaborative posted the January 2014 MiPCT All-Payer Patient Lists the week of January 27, 2014. In this month's lists the following clinical fields are populated:

- # of Inpatient visits in newest 6 mo of data
- # of visits to any PCP in newest 6 mo of data
- Most recent PCP visit date
- # of maintenance drug prescriptions in newest 6 mo of data

An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the MiPCT Dashboards. The patient list .zip file includes a list of all MiPCT patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2014_01. For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the (MiPCT Support Page).

JANUARY 16, 2014

Release 7.0 of the MiPCT Dashboards and Reports Posted Today

This release includes the following additions:

- Priority Health data (HMO and POS) is included.
NOTE: The addition of the data for these plans may alter some rates.
- For measures that MDC calculates, the measurement year includes dates of service from 7/1/2012 through 6/30/2013 based on paid claims through 9/30/2013. This calculation allows for a three-month claims run-out.
- Standard Cost values have been updated from the newest version of the Truven Health Analytics Commercial MarketScan[®] data
- The ACSC measures are now included on IP reports and patients lists.

JANUARY 9, 2014

Dashboards & Reports Release Schedule Update

Due to data issues that needed to be corrected, MDC postponed the 6.0 release and will combine it with the 7.0 release to take advantage of the availability of more recent data. The 7.0 release is scheduled to be available the week of January 13, 2014. It will include the following:

- Data from the newest participating payer, Priority Health.
- Paid claims and eligibility data through September 2013.
- An updated measurement period through June 2013.

When the release is ready, we will send an email to notify users and provide the release details.

DECEMBER 30, 2013

Updated December 2013 All-Payer Patient Lists Posted

The Michigan Data Collaborative has posted the revised December 2013 MiPCT All-Payer Patient Lists. The updated December Patient Lists now include risk scores and risk groupings for Medicare patients.

The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list .zip file includes a list of all MiPCT patients for your PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2013_12.

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

DECEMBER 20, 2013

MDC's December 2013 MiPCT All-Payer Patient Lists released to POs

The Michigan Data Collaborative posted the December 2013 MiPCT All-Payer Patient Lists on December 20, 2013. An email announcing the release was sent to Dashboard users. Please note that due to a data issue, risk scores for Medicare patients are not included in this release. We are working on this issue and will repost an updated December patient list with the Medicare risk scores as soon as possible.

The MiPCT All-Payer Patient Lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list .zip file includes a list of all MiPCT patients for your PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2013_12.

For information about the All-Payer Patient Lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support page.

NOVEMBER 26, 2013

MDC's November 2013 MiPCT All-Payer Patient Lists released to POs

The Michigan Data Collaborative posted the November 2013 MiPCT All-Payer Patient Lists on November 26, 2013. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list .zip file includes a list of all MiPCT patients for your PO, formatted lists for each Practice within your PO, and a dropped patient list.

This month's lists includes the Priority Health PPO population and the following new fields:

- Medicare Dual Eligibility flag — Indicates if a member is dual enrolled in Medicare and Medicaid.
- Priority Health HSA flag — Indicates if a Priority Health member is in a high-deductible plan.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2013_11. For information about the All-Payer patient lists, including a description of the fields, see the All-Payer Patient List Information document on the MiPCT Support Page.

NOVEMBER 25, 2013

Enhancement 5.01 of the MiPCT Dashboards and Reports Posted Today

This release includes the following updates:

- Updated Standard Cost PMPM Calculation — The Standard Cost PMPM calculation has been updated to use the actual patient months of eligibility (instead of 12) to get a more exact per member per month value. The updated formula = $\text{Sum (Total Costs)} / \text{Sum (Eligible Member Months)}$.
- New MiPCT and PO Population and Cost Trends Dashboards — These dashboards display the Standard Cost PMPM rates for each risk group over defined time periods. This can help you track long-term trending for standard costs.
- New MiPCT and PO Quality Trends Dashboards — These dashboards display the diabetes quality measure rates over defined time periods. This can help you track long-term trending for each diabetes quality measure.
- Added the following ACSC measures to the IP Utilization sections of the Utilization dashboards:
 - Adult Acute ACSC Admission Rate (per 1000 Admissions)
 - Adult Chronic ACSC Admission Rate (per 1000 Admissions)
 - Pediatric ACSC Admission Rate (per 1000 Pediatric Admissions)

NOVEMBER 1, 2013

Release 5.0 of the MiPCT Dashboards and Reports Posted Today

This release includes the following updates:

- The data in the Dashboards and Reports have been updated using paid claims data from 1/1/2012 through 5/31/2013 for Medicare, Medicaid, BCBSM, and BCN.
- For measures that MDC calculates, the measurement year includes dates of service from 3/1/2012 through 2/28/2013. This calculation allows for a three-month claims run-out.

AUGUST 30, 2013

Enhancement 4.01 of the MiPCT Dashboards and Reports Posted Today

This enhancement includes the following additions and updates:

- Added a PO Comparison — Utilization Dashboard and Report which contains the ED utilization measures across all POs.
- The denominator calculation for ED and IP measures was updated to account for patients who were not continuously enrolled.
- Removed the word “Summary” from the dashboard names.

AUGUST 5, 2013

Updated July 2013 All-Payer Patient Lists Posted

MDC re-posted the July 2013 All-Payer Patients Lists (APPLs) on August 5, 2013. The following changes were made:

- On all lists, the NEW_PATIENT_PO_FLAG and NEW_PATIENT_PU_FLAG fields were recalculated for improved accuracy.
- The Dropped Patient lists were added. The file name has the following format: <PO name>_All_Practice_All_Payer_Patient_Drop_List_2013_07.csv.
- For BCN patients, the Payer Specific Member ID field was updated and now contains a concatenation of the subscriber number and the subscriber suffix.

An email announcing the posting was sent to Dashboard users. You can access the MiPCT All-Payer Patient Lists on the Download PO Reports tab of the MDC MiPCT Dashboards. The patient list files include a list of all patients for the PO and formatted lists for each practice within your PO.

For more information about the July APPL, see the All-Payer Patient List Information document located on the MDC (Support Page).

JULY 30, 2013

MDC's July 2013 MiPCT All-Payer Patient Lists released to Physician Organizations

The Michigan Data Collaborative posted the July 2013 MiPCT All-Payer Patient Lists (APPLs) on July 30, 2013. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list files include a list of all patients for the PO and formatted lists for each Practice within your PO.

Notes

- We are working to resolve an issue detected in last month's Dropped Patients lists, and they are not included in the files released today. The July Dropped Patients lists will be added as soon as the issue is resolved--we expect within a week.
- As previously announced in webinars and the FLASH newsletter, the July 2013 patient list includes two major changes: 1) The record layout has changed to move certain fields (columns) to the beginning of the record layout, and 2) The sort order of patient records has changed to more quickly identify patients of interest for care management services.
- The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: `_All_Practice_BCBSM_MA_Patient_List_2013_07`.
- For more information, you can find the following documents on the MDC (Support Page).
- All-Payer Patient List Information — Information about the data in the APPLs, including a description of the fields
- July 2013 Changes to the All-Payer Patient List — Details the changes in the June and July 2013 APPLs

JULY 29, 2013

Release 4.0 of the MiPCT Dashboards and Reports Posted

Release 4.0 of the MiPCT Dashboards and Reports is now available! This release includes the following additions and updates:

- Blue Care Network (BCN) data has been added to all dashboards and reports.
 - The data in the Dashboards and Reports have been updated using paid claims data from January 1, 2012 through March 2013 for Medicare, Medicaid, BCBSM, and BCN.
 - For measures that MDC calculates on the dashboards, the measurement year includes dates of service from 1/1/2012 through 12/31/2012. This allows for a three-month claims run-out.
 - The standard cost calculation has been updated, which results in an increased percentage of participants with standard cost assigned.
 - Added Inpatient utilization data to the MiPCT and PO Utilization Summary dashboards.
 - Added the following two new Inpatient utilization reports:
 - IP Summary Report — Includes a summary about all IP visits for a patient during the reporting period
 - IP Detail Report — Includes detailed information about each IP visit by a participating patient during the reporting period
- NOTE: The reporting period is the most recent 6 months available in the database, which is 10/1/2012 — 3/31/2013 for the 4.0 release.
- Added a new section on the Population Summary dashboards. This section displays the average concurrent and prospective risk scores by payer in both a table and graph format. The # of Inpatient Visits in Newest 6 months of data column is now populated on all patient-level drill-down lists.

Updated documentation, including the release notes, user guide, and quick reference documents, can be found on the MDC ([Support Page](#)).

JULY 24, 2013

Release 4.0 of the Dashboards and Reports Scheduled

The next release for MDC MiPCT Dashboards and Reports is scheduled for Monday, July 29, 2013. This release will include claims data for Blue Care Network (BCN) and will include data for all participating payers based on paid claims through March 2013. It will also include a new dashboard and reports for Inpatient visit measures and other features and updates. All features and updates will be detailed in the release notes that are posted with the release. We will send out an email to notify users about the expected downtime while we load the updated dashboards.

JULY 24, 2013

The July 2013 MiPCT All-Payer Patient Lists To Be Released this Week

The Michigan Data Collaborative plans to post the July 2013 MiPCT All-Payer Patient lists this week. An email announcing the release will be sent to Dashboard users. The MiPCT All-Payer Patient lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list zip file includes a list of all patients for the PO, formatted lists for each Practice within your PO, and a dropped patient list.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: `_All_Practice_BCBSM_MA_Patient_List_2013_07`.

This month's lists include the following changes:

- The record layout has changed to move certain fields (columns) to the beginning of the record layout.
- The sort order of patient records has been updated to more quickly identify patients of interest for care management services.

These changes are detailed in the July 2013 Changes to the All-Payer Patient List document posted on the (Support page) of the MDC website. For information about the All-Payer patient lists, including a description of the fields, see the All-Payer Patient List Information document on the MDC (Support page)

JUNE 28, 2013

MDC's June 2013 MiPCT All-Payer Patient Lists released to Physician Organizations

The Michigan Data Collaborative posted the June 2013 MiPCT All-Payer Patient Lists on June 27, 2013. An email announcing the release was sent to Dashboard users. The MiPCT All-Payer Patient lists are located on the Download PO Reports tab of the MDC MiPCT dashboards. The patient list files include a list of all patients for the PO and formatted lists for each Practice within your PO. Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2013_06.

This month's lists include the following changes:

- Two new fields to help care managers quickly identify new patients for review. The two new fields are titled "NEW_PATIENT_PO_FLAG" and "NEW_PATIENT_PU_FLAG" and indicate if a patient is new on the current month's Patient List for the PO or Practice. These fields are added to the end of the records.
- A dropped patient list, which includes patients who appeared on the previous month's list, but do not appear on the current month's list. The file is included in your All-Payer Patient List .zip file and is titled "<PO_name>_All_Practice_All_Payer_Patient_Drop_List_YYYY_MM." This file includes patients for the entire PO. (There are no practice-specific dropped patient lists.) The record layout of the dropped patient list is the same as the other patient list files.
- In addition, please be advised that MDC is making the following major changes to the July 2013 patient list:
 - The record layout will change to move certain fields (columns) to the beginning of the record layout.
 - The sort order of patient records will change to more quickly identify patients of interest for care management services.

These changes are detailed in the July 2013 Changes to the All-Payer Patient List document posted on the (Support page) of the MDC website. If you have any questions, or if your programmers would like a sample file to work with, please contact MDC at MichiganDataCollaborative@med.umich.edu. For information about the All-Payer patient lists, including a description of the fields, see the All-Payer Patient List Information document on the MDC (Support page).

JUNE 21, 2013

MiPCT Dashboards Enhancement 3.02 Released

Enhancement 3.02 of the MiPCT Dashboards is now available! This enhancement includes the following additions and updates:

- Added report details and descriptions on the View PO Reports and Download PO Reports tabs
- Added the Adolescent Immunization Measure to the PO Comparison — Quality dashboard and the PO Quality Measure Comparisons Report
- Added drill-down updates to the PO Comparison — Quality dashboard
- Added collapsible section headers on the PO Comparison — Quality dashboard, View PO Reports tab, and Download PO Reports tab
- Changed the Quality Measure Dashboard names to the following:
 - MiPCT Quality Summary
 - PO Quality Summary
 - PO Comparison — Quality
- Updated the Facility Field in the ED Detail Report so that it now includes the correct facility name
- On The Quality Summary dashboards, added “N/A” for measures that are not calculated for given Payers

Updated documentation, including the Release Notes and User Guide, can be found on the Support page of the MDC Website.

JUNE 12, 2013

MDC posts updated All-Payer Patient Lists to correct error in titles

Updated All-Payer Patient Lists have been posted due to an error in the title of the individual practice reports. The data in these reports applied to the appropriate practice; however, the report title included the wrong information. The correct PO and Practice name are now included at the top of each report.

We apologize for any inconvenience.

MAY 31, 2013

MiPCT Dashboards Enhancement 3.01 Released

Enhancement 3.01 of the MiPCT Dashboards is now available! This enhancement includes:

- Population Summary dashboards — Added Standard Cost data back into the dashboards. Notes about Standard Cost:
- Members with claims for which standard cost could not be assigned are not reflected in standard costs on this dashboard.
- Standard costs are assigned to inpatient and outpatient services only and exclude pharmacy costs.
- Standard Cost PMPM is blank if there are no members with sufficient standard cost data to produce the PMPM calculation.
- Utilization Summary dashboards — Added ED benchmark data. These benchmarks are for viewing and comparing purposes only; they are not used for calculating performance incentives.
- All dashboards — Added timeframe information to graph and table titles so that this information is included when you print or export them.

Updated documentation, including the release notes, user guide, and quick reference documents, can be found on the [MiPCT Support Page](#).

MAY 21, 2013

MDC's May 2013 MiPCT All-Payer patient list released to Physician Organizations

The Michigan Data Collaborative posted the May 2013 MiPCT All-Payer Patient Lists on May 21, 2013. An email announcing the release was sent to Dashboard users.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <PONamenu>_All_Practice_BCBSM_MA_Patient_List_2013_05.

MDC plans to release the MiPCT All-Payer patient lists every third week of each month.

The All-Payer patient lists can be found on the Download PO Reports tab of the MDC MiPCT dashboards. For information about the All-Payer patient lists, including a description of the fields, see the All-Payer Patient List Information document on the (MiPCT Support Page).

MAY 13, 2013

Release 3.0 of the MiPCT Dashboards and Reports Release Posted

This release includes:

- Updated dashboards and reports using paid claims data through December 2012 for Medicare, Medicaid, and BCBSM.
- New PO Quality Measure Comparisons dashboard and reports to compare quality measure rates across all POs in the MiPCT project.
- On the Population Summary Dashboard, when you drill down to the members list, the # of ED visits in newest 6 months of data column is now populated.
- On the View PO Report tab, the ED Summary and ED Detail reports are now initially sorted by practice and then by physician.
- On the View PO Report tab, removed the Multi-Payer Attribution List and Risk Stratification report. To view attribution data, see the All-Payer Patient Lists on the Download PO Report tab.
- On the View PO Report tab and the Download PO Report tab, the corrected Medicaid plan is populated in the Payer column of the ED Summary and ED Detail reports.
- On the Download PO Report tab, the Number of ED Visits column is now populated in the All-Payer Patient Lists.

Updated documentation, including the release notes, user guide, and quick reference documents, can be found on the ([MiPCT Support Page](#)).

APRIL 29, 2013

G-Code reports for Jan and Feb 2013 are now available

A summary report of G-code billing from BCBSM paid claims in 2013 is now available for each on the Download PO Reports tab of the MiPCT Dashboards. There are separate .zip files for January and February data, using the following name format:

<POname>_G-Code_Reports_MiPCT_Overall_2013_<month>.zip

Each .zip file contains 2 files: (1) a listing of that month's totals, broken out by Practice, and (2) the YTD totals broken out by Practice.

A Quick Reference Guide for these reports is also available in the User Guides section of the Support page on the MDC website.

MDC plans to produce and release these reports on a monthly basis. The March data is being loaded and processed; a notification will be sent when the March reports are available.

As always, suggestions and questions are welcome. Please continue to send them to MichiganDataCollaborative@med.umich.edu.

APRIL 25, 2013

Update on All-Payer Patient List, MiPCT Dashboard/Report Release and G-Code Reports

Thank you for your patience while we made a correction to your April 2013 All-Payer Patient Lists. The updated files are now posted and available on the Download PO Report tab of the dashboards.

Due to extended test cycles for the next release of the dashboards and reports, the release originally scheduled for tomorrow (Friday, April 26) is being rescheduled to next week. We will send out an announcement when we have a firm date. This next release will include paid claims data through December 2012 for Medicare, Medicaid, and BCBSM. We are excited to release this information to you and want to be sure it is thoroughly tested and verified before it is released. Again, thank you for your patience and understanding.

We are in the process of creating and providing a summary report of your G-code billing from BCBSM claims. We expect this to be ready soon and will notify you as soon as they are posted.

As always, suggestions and questions are welcome. Please continue to send them to MichiganDataCollaborative@med.umich.edu.

MiPCT Dashboards Walkthrough Presentation Posted

For your reference and use MDC created a slide deck to walkthrough the MiPCT dashboards and reports. The presentation is perfect to use if you need a quick reminder about what is included in the dashboards or want to show the contents to others. It is posted in PowerPoint so that you can customize it for your needs.

MDC plans to update the screenshot presentation as needed to reflect additions and updates to the dashboards and reports.

MARCH 27, 2013

Re-Posted March Patient Lists

The March BCBSM MA Patient List has been re-created to correct the member ID field issue. The new file is now available on the PO Downloads tab of the MDC MiPCT Dashboards.

During our investigation, we also noticed the same issue with the All-Payer Patient List files. Those files have also been re-created and reposted this morning. We apologize for any inconvenience this has caused. Thank you again for your patience as we investigated and resolved this issue.

MARCH 26, 2013

MiPCT Dashboards Enhancement 2.02 Released

Enhancement 2.02 of the MiPCT Dashboards is now available! This enhancement includes:

- Population Summary dashboards — Added a Risk Group Range column to the Member Risk Levels table. This column provides the numerical risk score range for each risk category (Very High, High, Medium, etc.)
- Quality Measures Summary dashboards — Changed column heading in the Quality Measures by Payer table from “Comm” to “Commercial.” This column includes data for all commercial payers.
- Quality Measures Summary dashboards — Changed the Quality Group label from “Diabetes Overall” to “Diabetes.”
- Utilization Summary dashboards — Updated the measures order in the graph to match the order in the table.

Updated documentation, including the release notes, user guide, and quick reference documents, can be found on the ([MiPCT Support Page](#)).

MARCH 22, 2013

MDC's March 2013 MiPCT All-Payer patient list released to Physician Organizations

The Michigan Data Collaborative posted the March 2013 MiPCT All-Payer Patient Lists on March 22, 2013. An email announcing the release was sent to Dashboard users.

The All-Payer Patient lists can be found on the Download PO Reports tab of the MDC MiPCT dashboards. The zip file for your PO includes an all-practice patient list and individual lists for each practice in your PO.

Note: The BCBSM Medicare Advantage patient list is released as a separate file. The file is included in your PO's patient list zip file and has the following name format: <POname>_All_Practice_BCBSM_MA_Patient_List_2013_03.

MDC plans to release the MiPCT All-Payer patient lists every third week of each month.

For information about the All-Payer patient lists, including a description of the fields, see the All-Payer Patient List Information document on the (MiPCT Support Page).

FEBRUARY 22, 2013

MDC's February 2013 All-Payer Patient List Released to POs

The Michigan Data Collaborative (MDC) posted the February 2013 All-Payer Patient Lists on February 22, 2013. An email announcing the release was sent to Dashboard users.

Note: The BCBSM Medicare Advantage group is not included in the February 2013 All-Payer Patient List. MDC will release the BCBSM Medicare Advantage patient list as a separate file when it becomes available.

MDC plans to release the All-Payer Patient List every third week of each month.

The All-Payer Patient List can be found on the Download PO Reports tab of the MDC MiPCT Dashboards. For information about the All-Payer Patient List, including a description of the fields, see the "All-Payer Patient List Information" document on the MiPCT Support Page.

FEBRUARY 15, 2013

MiPCT Dashboards Version 2.0 Released

Version 2.0 of the MiPCT Dashboards is now available! This release includes:

- Addition of BCBSM claims and eligibility data for 2010 and 2011. Claims are paid through July 2012.
- Updated claims and eligibility data for Medicare and Medicaid. Claims are paid through July 2012.
- The Measurement Year was updated to reflect activity from April 1, 2011 to March 31, 2012 (allowing for claims run-out).
- Addition of a Well Child Visits 15-months metric to the Quality Measures dashboards.
- Grouped Quality Measures into the following three categories: Diabetes Overall, Adult Preventative, and Pediatric Preventative.
- Temporary removal of Standard Cost information. (MDC is reviewing the methodology in order to assign standard cost to a larger proportion of the population. When this is completed, MDC will add it back in.)

Updated documentation, including the Release Notes and User Guide, can be found on the [MiPCT Support page](#).

JANUARY 28, 2013

Updated Multi-Payer Patient List Released

The updated Multi-Payer Patient List was released on January 28, 2013. The file naming convention is: <PO_name>_ Multipayer_Attribution_2013_01.

Note: The BCBSM Medicare Advantage (MA) group is not included in the January 2013 Multi-Payer Patient List. We will release the BCBSM MA attribution list as a separate document when it becomes available.

Going forward, MDC plans to release the Multi-Payer Patient lists every third week of each month. All previous versions of each list will remain posted for reference.

The Multi-Payer Patient lists can be found on the Download PO Reports tab of the MDC MiPCT Dashboards. For information about the Multi-Payer Patient List, including a description of the fields, see the “Multi-Payer Patient List Information” document on the [MiPCT Support page](#).

DECEMBER 19, 2012

Updated Multi-Payer Attributed Patient List available

The MDC web portal downloadable files have been updated and are now ready for download. Please note the following changes from the files posted earlier this week:

- The MiPCT Risk Scores were not populated in the file posted earlier this week, they are included now.
- We received an updated Medicaid attribution list this week. The file posted today includes the updated Medicaid attribution list.
- The files are in a .zip file for ease of downloading. When you open the .zip file, you will find the Multi-Payer Attribution List in a .csv format which you can open in Excel or whatever application you choose for .csv files.

We've received several questions about the Risk Scores on the file. Here are a few things to keep in mind:

- The HCC scores for Medicare will not be included in the MiPCT multi-payer attributed patient list. Only the MiPCT DCG-based risk scores are included. They are in the columns "Concurrent Risk Score" and "Prospective Risk Score". For more information about the DCG-based risk scoring, see the documents posted on the MDC website (www.MichiganDataCollaborative.org), on the "Support" page.
- The BCBSM risk score is included for only BCBSM patient records. These are records where PAYER = "BCBSM". The BCBSM risk score is in the column BCBSM_PRISK.

A document explaining the Multi-Payer Attribution List files is available on the MDC website "Support" page. It includes a list of fields available in the file. Some of you have asked for a Data Dictionary. If this does not meet your needs, please contact the MDC.

JULY 16, 201

MiPCT Medicaid patient attribution lists sent

A file of Medicaid managed care patients who are attributed to their MiPCT-participating practice units for July 2012 was sent to each participating MiPCT PO on July 16th. Each PO should have received an automated email from MiShare at the University of Michigan Health System Notification Service with the subject “New Package is Waiting”; the e-mail contained a link to follow to download the file. You must retrieve the file within 4 days of receiving the notification email or the package will expire.

If you picked up files from MiShare recently, you will receive an automated email from MiShare at the University of Michigan Health System Notification Service with the subject “New Package is Waiting”. You may follow the link in the email to log in (using the password you created when you picked up your files a few weeks ago) and download the file. If you have forgotten your password, you can reset it at the bottom of the MiShare login page.

If you haven’t picked up a file from MiShare recently, you will receive two emails from the MiShare system-the first will allow you to sign on to the system and change the password for the account that has been created for you, and the second will contain a link to log into the system to pick up the package.

If you do not receive the email from the MiShare system by the end of the day Wednesday (July 18th), please make sure you check your “Spam” mailbox, as we have heard from a few people that the email has hit their spam filter.

If someone from the PO did not pick up the file from the MiShare system after 4 days, please contact the Michigan Data Collaborative so the file can be reposted for pick up (the files expire after 4 days).

As always, please contact the Michigan Data Collaborative at MichiganDataCollaborative@umich.edu with any questions regarding the file retrieval process or the Attributed Patient Lists.

JULY 6, 2012

MiPCT Medicaid patient attribution lists sent

A file of Medicare FFS patients who are attributed to your MiPCT-participating practice units for July-September 2012 was sent to each participating MiPCT PO on July 6th. If you picked up files from MiShare recently, you will receive an automated email from MiShare at the University of Michigan Health System Notification Service with the subject “New Package is Waiting”. You may follow the link in the email to log in (using the password you created when you picked up your files a few weeks ago) and download the file. If you have forgotten your password, you can reset it at the bottom of the MiShare login page. If you haven’t picked up a file from MiShare recently, you will receive two emails from the MiShare system-the first will allow you to sign on to the system and change the password for the account that has been created for you, and the second will contain a link to log into the system to pick up the package. You must retrieve the file within 4 days of receiving the notification email or the package will expire.

If you do not receive the email from the MiShare system by the end of the day today (July 6th), please make sure you check your “Spam” mailbox, as we have heard from a few people that the email has hit their spam filter.

Please feel free to contact the Michigan Data Collaborative at MichiganDataCollaborative@umich.edu with any questions regarding the file retrieval process or the Attributed Patient Lists.

JUNE 12, 2012

MiPCT Medicaid patient attribution lists sent

A file of Medicaid managed care patients who are attributed to their MiPCT-participating practice units for June 2012 was sent to each participating MiPCT PO on June 12th. Each PO should have received an automated email from MiShare at the University of Michigan Health System Notification Service with the subject “New Package is Waiting”; the e-mail contained a link to follow to download the file. If the email from the MiShare system was not received, check your “Spam” mailbox, as we have heard from a few people that the email hit their spam filter. If someone from the PO did not pick up the file from the MiShare system after 4 days, please contact the Michigan Data Collaborative so the file can be reposted for pick up (the files expire after 4 days). As always, please contact the Michigan Data Collaborative at MichiganDataCollaborative@umich.edu with any questions regarding the file retrieval process or the Attributed Patient Lists.

Looking for MiPCT PO “Authorizers”

To assist us with validating user account requests, we will ask each PO to designate 2 people from their organization to act as “Authorizers” for all users who register a user account to access their PO’s data. We know you are anxiously awaiting reports from the multi-payer claims database, and we are working diligently to collect the data and build the reports. The reports will be distributed via a web portal which will require individual users from each PO to create user accounts. This will allow us to be sure each PO receives only their data. We’re asking for 2 people from each PO for this role to be sure we have coverage if someone is out of the office or there are staffing changes at the PO. The responsibilities of this role will be to verify new accounts and confirm existing accounts to remain open and active; it will not be time consuming, but we will need you to be responsive to requests for validation. We will provide more detailed information about the requirements for this role when we are closer to creating user accounts. Please begin considering who you might designate from your organization for this role; they do not necessarily need to be the same staff who will access MiPCT reports for your PO. Thank you in advance for your help in protecting this data and ensuring it is only shared with the appropriate people.

MiPCT Medicare and Medicaid Attribution Lists Sent

The Michigan Data Collaborative sent each PO their attribution lists for Medicare and Medicaid patients. You should have received an April attribution list for Medicaid patients and an April-June for Medicare patients. The files do not stay on the server for more than a couple days and then they are automatically deleted. If you did not have a chance to download them when they were originally made available, please contact the Michigan Data Collaborative via e-mail at: MichiganDataCollaborative@umich.edu and we will re-load your files to the secure server.
